Currently in my second year studying Computer Science and Wizardry at Hogwarts.
Interested in all aspects of Software development with experience of using Python, Java, C++

Education

University of Hogwarts

October 2019 – June 2022

BSc Computer Science and Wizardry

First year grade 2.1

- Experience of using programming tools such as Python and Java
- Modules have included software engineering and data analytics

Stonewall High School

September 2012 – July 2019

A Levels in Mathematics (A), Economics (A) and Physics (B)

10 GCSEs: 2 A*, 4A, 4B

Work Experience

Diagon Security

July 2019 – October 2019

Analyst

- Responsible for producing daily and weekly analytical reports for the management team
- Updating and handling large data sets
- Using SQL and Excel on a daily basis to manipulate data

Eeylops Owl Emporium

December 2018 – January 2019

Retail Assistant

- Part time work over the Christmas period
- Providing excellent customer service in a pressured work environment
- Frequently in charge of the shop premises, taking full responsibility for sales and orders

Technical Experience

- Learned Python and Java as part of first year programming modules
- Proficient user of SQL and Excel – used within a business environment
- Proficient in C++ which I have learned in my own time. An example of my work can be found [here](#)

Extra-curricular Activities

Secretary for Hogwarts Quidditch Society

November 2019 – Present

- Successfully organised a tournament for 8 teams and over 100 spectators
- Regularly participant in matches and events

I also enjoy wizard chess, magic and spell-making.
